Your child has completed fifth grade RII Tier II. After examining the data from assessments and his/her performance in the classroom, we have decided that your child would benefit from the support of being moved to Tier III for more intensive interventions in the next RII cycle. You will be notified at a later date when RII will begin again and the interventions that your child will be receiving.

If you have any questions or concerns about this decision or the RII process, please contact the school office to set up a time that we could meet with you. Thank you for supporting your child's education.

Sincerely,
